Next Generation 4K Picture Quality

Bring the incredible depth and quality of 4K resolution to your business with our BRAVIA 4K Professional Displays, available in 43" – 85" screen sizes.

Superior displays designed for business

Our BRAVIA 4K Displays are designed to suit all your professional needs so you always present a clear image. Portrait orientation reliability, advanced control, professional mode, optional interactive compatibility, 24/7 operation and an embedded HTML5 platform for easy digital signage creation.

Professional design

Our line-up offers all the technological performance and style you'd expect from BRAVIA, powered by our 4K HDR Processor X1 enhanced processor. The 4K LCD panel produces four times the pixels of Full HD for outstanding picture quality, while the ultra-slim new design enhances any corporate or retail environment.

Do more with our BRAVIA solutions

Look no further with BRAVIA Professional. Our new full-line series features a number of remarkable built in and optional solutions to customize your BRAVIA exactly the way you want.

Key Features

Around the clock display

With reliable 24/7 operation, the BRAVIA BZ series enable you to deliver your message around the clock. BRAVIA outshines ordinary displays with an incredibly high 620 cd/m²* and up to 850 cd/m²* brightness, combined with a combined with stunning 4K resolution, it ensures your visual communications always stand out, even in daylight or well-lit rooms, day and night.

*Except for the FW-43BZ35F and the FW-49BZ35F

New functionality**

Discover a new world of possibilities with the new BRAVIA functionality. From easily mirroring your content into your BRAVIA with Apple AirPlay and Chromecast-built in, to using DICOM, and supporting the Wi-Fi 5GHz.

^{**}Model specific, conditions apply for some functionality

Ultimate Picture Quality

16:9 4K resolution (3840 x 2160 pixels)

With over 8 million pixels, a 4K resolution screen offers four times the detail of Full HD. Combined with the ability to manage 4K 60P up to 18Gbps, it now produces a level of detail and realism beyond anything you've seen before.

4K HDR X1 Processor

Our powerful 4K HDR X1 Processor enhances contrast, clarity and color to the highest level. Clarity improves with intelligent upscaling and noise reduction, colors are individually enhanced, and the dynamic range of contrast is optimized frame by frame.

Higher contrast, higher brightness

With Full Array Local Dimming being supported (applies to BZ40H models only), specific sections of the screen can be incredibly bright while other areas remain pitch black so you get the best contrast possible, in addition, light areas in the image receive a boost in backlighting, creating brilliant peaks of brightness.

Compatible with High Dynamic Range (HDR)

View a wider range of brightness levels with HDR, the emerging video format that allows content creators to expand their range of creativity.

Strong performance

With new functionalities such as Wi-Fi 5GHz Support, Apple AirPlay, Chromecast built-in, DICOM, the BRAVIA performance is stronger than ever before.

Elegant design

With the sleek new design, your BRAVIA will add a perfectly sophisticated touch to any environment.

Versatile control options

Easily control your BRAVIA remotely – including on/off, input signal select and adjust volume – via IP or via RS-232C. For quick operation in meetings or for digital signage, it takes just one click to change to your chosen default settings.

Automatic on/off feature

Easily program your BRAVIA with the On Timer feature to automatically turn your BRAVIA on or off.

Mode portrait and 24/7 capability

For greater signage impact, the BRAVIA Display can be used in both in portrait orientation and operate 24/7.

Professional Mode

There is now more control to disable input or remote control, remove labels and block buttons; customize and store display settings and features, add security then copy them easily from display to display via USB flash memory.

Do more with BRAVIA

Software platform to enhance business applications

Simple and easy 4K signage configuration

You can easily establish 4K digital signage by simply selecting the files or URLs of video, stills, or web pages. It's all manageable via a USB memory; your 4K signage solution is ready to get started on an affordable budget. What's more, 2K content gets automatically upconverted to 4K so even your current content can be displayed with finer results.

Flexible content layout with HTML5

The BZ Series offers built-in support for the HTML5 application platform, so it's possible to use HTML5 interactive signage content as well as the portal site for hotel room guests without requiring a set-top box or PC. The content screen can be freely laid out using the 4K video, pictures, or even with the HDMI input.

Over 100 REST APIs for remote monitoring and control

With more than 100 REST APIs built-in, monitoring and controls from remote locations and integration with external systems are available. We also provide a free app that enables control of the display via IP.

Meeting room solution

Standard and enhanced interface in meeting rooms with smart features, and efficient automated systems for input management. There is no need for extra controllers in the room and settings stay exactly as they have been programmed.

Optional Software & Accessories

BRAVIA Meeting (WQ-BM1)

BRAVIA Meeting enables centralized management of displays and interactive meetings via a network. The optional software, BRAVIA Meeting, enables remote monitoring of multiple displays, power control, and configuration changes. In addition, displaying PC screen shots wirelessly and annotation which enhances in-meeting collaboration.

BRAVIA Signage (WQ-BS1)

BRAVIA Signage simplifies management and distribution of signage content across multiple networked BRAVIA displays. Group displays, schedule content playout and more – everything's included with this highly flexible package.

Simple Media Player 2 (WQF-USMP2) / Free of charge

Simple Media Player 2 is an easy-to-use standalone signage player application, allowing you to display video, photos and HTML5 content directly from a connected USB flash memory.

It's quick and intuitive to set up screens, edit and preview playlists and schedules using the BRAVIA display's remote controller.

FWA-CE100

Full HD USB Camera & Microphone exclusively designed for BRAVIA 4K Professional Displays.

STP-IR Series
